Safety Advice

Please read these instructions carefully before you begin, when finished store safely for future reference.

It would be sensible to lay down a sheet or blanket on the floor in the room you are going to assemble the product in, this will help to avoid scratching the product and will help to protect the floor.

If the product is going to be used on a wood, laminate or tiled floor, we would recommend the use of anti-slip pads, these are available cheaply in most good hardware stores.

Unpack the product carefully, inspect all parts and check all the parts are in the box remembering some parts are in the back of the headboard, check all hardware and make sure all numbers match the AI.

We strongly recommend that children are kept out of the area where the bed is being assembled as there are several small parts that could present a choking hazard.

Do not use any power tools in the assemble of this bed at ANY time.

When you start to assemble the product, we recommend you put all small parts i.e. nut, bolts etc. into a bowl, this way you're less likely to lose any parts. Do not fully tighten bolts till your product is fully assembled. Do not tighten the bolts fully until the bed has been completely built.

Safety Warning

The design and construction of the base is made to only work with a mattress on top, do not sleep on the base without a mattress.

Every 3 months re-tighten the bolts to make sure they have not worked loose.

Make sure all 4 feet are in contact with the floor, if not use the adjustment on the feet to make it happen.

If for any reason you want to move the product to a different location the bed **MUST** be fully dismantled first to prevent damage.

PARTS LIST

HARDWARE LIST

LABEL	PICTURE	DESCRIPTION	QTY	LABEL	PICTURE	DESCRIPTION	QTY
A		Bolt M8 x 25 mm	14	D		Support Leg (Metal)	2
B		Washer M8	12	E		Single Plastic Cap	26
C		Foot	4	F		Double Plastic Cap	13

TOOL LIST

LABEL	PICTURE	DESCRIPTION	QTY
T-1		Allen key #5	1

ATTENTION: Item A & B for the headboard and footboard have had 12 of each already fitted in to position.
Please double check before reporting short.

1

C  x 4
Foot

2

A  x 8
Bolt
M8 x 25 mm

B  x 8
Washer M8

T-1  x 1
Allen key #5

ATTENTION: Please use washers following Assembly Instruction and tighten all bolts before using.
Otherwise it would make the central support rail and legs vulnerable, the bed may collapse.

3

A		x 6
Bolt		
M8 x 25 mm		
B		x 4
Washer M8		
D		x 2
Support Leg (Metal)		
T-1		x 1
Allen key #5		

ATTENTION: After central rail and support legs being assembled, rotate adjustable feet to make support legs 10mm away from the floor. Support legs would touch the floor when a mattress is put on the base.

4

E		x 26
Single Plastic Cap		
F		x 13
Double Plastic Cap		

General Care

Vacuum the fabric area on a regular basis to take out any surface dust or grit.

Avoid the use of all household cleaners and abrasives.

Never drag or push the pieces across the floor as this will cause damage to the joints and could result in failure to the product that will invalidate the warranty.

Always lift the product when moving.

Never rub hard on the fabric to get a stain out. If you can't remove it with a clean damp white cloth, seek for professional advice.

Never sleep on the base without a mattress fitted, they are made to work together.

Notes

We've tried to make this piece of furniture as easy to assemble as possible.

In the unlikely event that you have problems putting it together or have damaged or missing pieces, please contact your supplier.
